Extra Problems – Week 1

1. **Write the Python program to print the following string in same specific format**
   file name : twinkle_extra_1.py

   ```
   Twinkle, twinkle, little star,
       How I wonder what you are!
               Up above the world so high,
               Like a diamond in the sky.
   Twinkle, twinkle, little star,
       How I wonder what you are
   ```

2. **Write a Python Program to calculate the Area of rectange and Triangle.**

   file name: area_rect_triangle.py

3. **Write the Python Program to calculate the average of 10 numbers.**
   2 4 6 8 10 12 2 4 6 8
   filename: average_of_numbers.py

4. **Print a string that uses double quotation marks inside the string.**
   Filename: quote_extra_4.py
   For example:
   "Practice Makes perfect" --- Benjamin Franklin

5. **Create two strings, concatenate them, and print the resulting string**
   filename: string_extra_5.py

6. **Create two strings, use concatenation to add a space between them and print the result.**
   Filename: string_extra_6.py
